Scenario cards – set 1

Learning outcomes
Pupils will:
> be prepared to react to different kinds of first aid situations
> have increased confidence about whether to give first aid treatment, get help or call 999
> understand the value and relevance of learning first aid
> know what first aid encompasses.

1. Kelly has been burned by a firework and her hand hurts.

- We can’t help – we don’t have a first aid kit.
- We should call 999 first.
- We don’t need a first aid kit – we can help.

2. Dan has fallen down a steep slope and is hurt.

First aid is only for experts – we shouldn’t try to help.

We should do what we can to help.

We might make things worse and get in trouble.

3. These children are going to learn about first aid.

Everyone should learn first aid because loads of people have accidents.

We don’t need to learn first aid because we can just call an ambulance.

First aid is only for grown ups.

4. Dan has a nose bleed.

Blood! I don’t know what to do!

I think we should leave him alone until an expert comes along.

Don’t panic! It’s easier to help if you’re calm.

Let's call 999 – it’s better than doing nothing.

I'm not a first aider.

6. Grace has had an accident and her leg is bleeding.

You should rush over to them straight away and see how you can help.

You should run away before you get hurt too.

You should only help if you’re sure you won’t hurt yourself.
